

SUMMARY

Experienced Software Developer specializing in comprehensive testing methodologies, encompassing performance, functional, integration, system, regression, and user acceptance testing. Proficient in both front-end and back-end development, I am driven by a passion for collaborating with teams to optimize processes and swiftly address project challenges. With a focus on effective communication and strategic problem-solving, I excel in dissecting intricate issues into actionable tasks, ensuring timely project completion and client satisfaction. Proactive and solution-oriented, I thrive in dynamic environments that allow me to leverage my full range of skills. I am eager to contribute to your team and make an immediate impact.

EDUCATION

University Of South Africa

Diploma In Information Technology
2015 – 2018

WETHINKCODE

Systems Development
2021 – 2023
